Planning Logic

Project: Implement Client Script & UI Policy (Incident)

1. Agile / Scrum Planning Foundation

- **A Sprint** is a fixed period or duration in which a team works to complete a set of tasks.
- **An Epic** is a big task or project that is too large to complete in one sprint. It is broken down into smaller tasks (stories) that can be completed over multiple sprints.
- **A Story** is a small task. It is part of an Epic.
- **A Story Point** is a number that represents how much effort a story takes to complete (usually in form of Fibonacci series: 1, 2, 3, 5).

Storypoint Scale (1, 2, 3, 5): 1 - Very Easy task | 2 - Normal task | 3 - Moderate task | 5 - Difficult task

2. Sprint Breakdown

Sprint 1: Client Script Implementation

Dynamic Client-Side Validations (Epic 1)

- Restrict Future Incident Opened Date (USN1) — **2 pts**
- Auto-Populate VIP Caller Alert & Visual Highlight (USN2) — **3 pts**
- Validate Critical Priority Impact Confirmation (USN3) — **2 pts**

Dynamic Form Interactivity & Controls (Epic 2)

- Default Focus & User Welcome Banner on Load (USN4) — **3 pts**
- Mandatory Resolution Notes (>20 chars) on Resolved/Closed (USN5) — **3 pts**
- Block Unauthorized Assignment Changes (USN6) — **3 pts**

Total Story Points in Sprint 1 = 2 + 3 + 2 + 3 + 3 + 3 = 16

Sprint 2: UI Policy Implementation

Lifecycle State Enforcement (Epic 3)

- Enforce Close Code and Close Notes on Resolved State (USN7) — **2 pts**
- Read-Only Lockdown on Incident Closed State (USN8) — **2 pts**
- Conditional Category & Subcategory Visibility (USN9) — **3 pts**

Advanced Incident Governance Policies (Epic 4)

- Enforce On-Hold Reason when Incident is On Hold (USN10) — **4 pts**
- Major Incident P1/P2 Field Visual Styling & Alerts (USN11) — **5 pts**

Total Story Points in Sprint 2 = 2 + 2 + 3 + 4 + 5 = 16

3. Team Velocity Calculation

Total Story Points: Sprint 1 = 16, Sprint 2 = 16
Velocity = Total Story Points Completed / Number of Sprints
Total Story Points = 16 + 16 = 32 | Number of Sprints = 2
Velocity = 32 / 2 = **16 (Story Points per Sprint)**
Your team's velocity is 16 Story Points per Sprint.

4. Planning Charts & Visualizations
